

1. **EC-TYPE EXAMINATION CERTIFICATE**

2. **Equipment or Protective System Intended for use in Potentially Explosive Atmospheres Directive 94/9/EC**

3. EC-Type Examination Certificate Number: **ITS09ATEX16846X**

4. Equipment or Protective System: **Incremental Encoder type REXM**

5. Manufacturer: **SCANCON A/S**

6. Address: **Tranevang 1, DK-3450 Allerød, Denmark**

7. This equipment or protective system and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

8. Intertek Testing and Certification Limited, notified body number 0359 in accordance with Article 9 of the Council Directive 94/9/EC of 23 March 1994, certifies that this equipment or protective system has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment and protective systems intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in confidential Intertek Report INT-CH3588/1/2/3- 09 042179 dated 13th April 2010.

9. Compliance with the Essential Health and Safety Requirements has been assured by compliance with standards EN 60079-0:2009, EN 60079-1:2007 and EN 61241-1:2004 except in respect of those requirements referred to at item 18 of the Schedule.

10. If the sign "X" is placed after the certificate number, it indicates that the equipment or protective system is subject to special conditions for safe use specified in the schedule to this certificate.

11. This EC-Type examination certificate relates only to the design and construction of the specified equipment or protective system in accordance to the directive 94/9/EC. Further requirements of the Directive apply to the manufacturing process and supply of this equipment or protective system. These are not covered by this certificate.

12. The marking of the equipment or protective system shall include the following:-

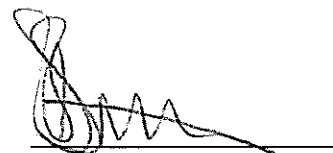

I M2 Ex d I Mb

II 2 G Ex d IIC T4 Gb

II 2 D Ex tb IIIB T135°C Db IP6* (*see schedule)

Tamb: -40°C to +54°C

13. SCHEDULE
14. EC-TYPE EXAMINATION CERTIFICATE NUMBER ITS09ATEX16846X
15. Description of Equipment or Protective System

The Incremental REXM Encoder is a small cylindrical unit (68 mm in diameter, length changes with lid) containing low voltage electronic components. The two piece construction is manufactured from either stainless steel or acid-proof stainless steel. The unit comprise three flame-paths a flanged joint between the lid and body, a threaded cable entry and one cylindrical rotating shaft controlled by k & m factors the shaft is held in place with 2 precision roller bearings. The Encoder can be marked IP65, IP66 or IP67 depending on actual configuration. Internal and External earthing is provided.

Nomenclature for type: REXM is described in drawing 00141198

16. Report Number:
- Intertek Report INT-CH3588 – 09 042179/1/2/3 dated 13 April 2010

17. CONDITIONS OF CERTIFICATION:

(a). Special Conditions for safe use

No modifications must be made to the flamepaths of the unit without consultation of the drawings listed in 19 below.

Safety fasteners shall provide a yield strength of at least 250 Mpa.

When installed in Cat M2 areas it must be protected against high risk of impact.

Internal free volume is less than 100cc.

Warning do not open when an explosive atmosphere may be present.

The cable gland utilized is covered by component certificate ITS08ATEX15913U.

(b). Conditions For Use (Routine Tests)

None

18. Essential Health and Safety Requirements (EHSR's)

The relevant EHSR's have been identified and assessed in Intertek Report INT-CH3588/4 –09 042179 dated 13th April 2010.
